

Funding the Fight: Generating Logistics Readiness Through AF Working Capital Funds

Course Objectives

Understand the concepts of how the AFWCF operates

Understand how the Air Force uses the AFWCF to finance sustainment activities in support of readiness

Familiarize you with the activities in the Maintenance and Supply divisions in the Consolidated Sustainment Activity Group.

To include:

- How depot maintenance requirements are planned (and priced)
- How the secondary item requirements are planned (and priced)

Recommendations on how you can make your organization a better partner in influencing the cost of sustainment and improving readiness

3

Administration

Building exits and bathrooms

Food and drink policy

Schedule

- Course Intro
- AFWCF Overview
- Break
- CSAG-Maintenance Overview
- CSAG-Supply Overview

4

Joe Diana

joe.diana@calibresys.com

Director, CALIBRE systems
Aircraft and Munitions Maintenance
Squadron and Group command
Pentagon experience: Division Chief,
Exec, and Logistics Panel Chair

5

Think Like A Business Owner

You want to open a business to repair cars:

- List as many cost categories you will have to cover (5 minutes) (i.e labor, parts, etc). Include the overhead categories needed to run the business.
- How would you determine how much to charge for an oil change? (5 minutes)
- How would determine how much to charge a customer that comes in with an “electrical problem”? (5 minutes)
- We will use your answers throughout the course discussion
